An individual with "All Seeing" access can view all Reports of External Professional Activities (REPA), Financial Disclosures for University Officials (FDUO), and Requests for Consultant or Outside Service Agreement (ROC) in the Electronic Grants Management System. Because some of the information contained on these disclosures is not considered public data, access is limited to those who have a legitimate need to know.

Requesters must use the “Statement of Business Need” field to answer these questions relating to their request for REPA data:

- Explain the reasons for requesting "All seeing" access to these documents.
- Which document(s) do you need to access?
- How frequently do you need to access these documents?
- What do you do with the information?
