2. There is no documentation in the AIR, Final, or an MFR, explaining the lack of an autopsy. On 10 Dec 03, the ASAC wrote in the AAS: "Battalion & Group ruled no autopsy & the body can be released to the NOK." The Battalion and Group POCs are not identified; nor is why they made this decision. No interrogators were interviewed. The doctor who declared the victim deceased and completed the death certificate was not interviewed. The female medic (NFI) mentioned by SPC [REDACTED] was not identified *b7c-4, b6-4* nor interviewed. The Soldier who apprehended the detainee was not interviewed. A statement of one of the guards was in the case file but not included as an exhibit in the ROI. There were no canvass interviews of the other detainees (at least ten of whom are in the crime scene photographs). Additional photographs of the deceased and his clothing on the CD should have been included in the photo packet. The crime scene sketch and the AIR do not document where guard personnel found the deceased. The AIR does not mention the presence, or lack of, signs of a struggle, or of blood or body fluids; nor are the environmental conditions annotated. The records of medical treatment of the deceased were not collected and reviewed. The complainant is identified by position, not by name.
3. All investigative reports were dispatched in a timely manner. Investigation was closed Final on 1 Jan 04.
