NOTE: The above values in **bold** require the unique data listed below in order to successfully run the queries:

- a. Project ID: The unique eight-digit Project ID value must be entered for each project and surrounded by quotation marks.
- b. Fiscal Year: The salary cap is based on calendar year. As a result, the query may need to be run over two fiscal years to cover the budget period of the award.
- c. Pay Periods: Include the specific pay periods that pertain to the effort period in which the query will be verifying.
