2. Search for the course name using the Search field in the upper right-hand corner of the ULearn screen.

3. This will bring you to a results page. Scroll down and find the assessment in the search results. Assessments are designated with the following icon: 📊

4. Click on the name of the assessment, and a new window will open.

5. Click <Request>.

6. This will take you back to your Active transcript. Click <Launch> to the right of the assessment name.

Remember:

- Pop-up blockers must be disabled for assessments and courses to launch.
- A score of 80 percent or higher is needed to pass an assessment.
- You have three attempts to pass.
- After three failed attempts, there is a waiting period before the course and assessment can be taken again. For financial courses, there is a six-month waiting period, and for HRMS courses, there is a three-month waiting period.
- In order to avoid being locked out of the ULearn system and losing one of your assessment attempts, make sure to click <Save and Return Later> throughout your assessment. This saves your answers while keeping the current attempt unlocked, which allows you to navigate away from the assessment to review course material. In addition, click the <Mark for follow up> check box at the end of each question to allow you to view what questions you got correct and incorrect after submitting your assessment attempt. Clicking <Summary> locks your assessment.
